

**AMENDMENTS TO THE CLAIMS:**

Claims 1-6 are canceled (without prejudice or disclaimer. Claims 7-22 are added. The following is the status of the claims of the above-captioned application, as amended.)

**Claim 7 (New).** A method of washing a fabric, comprising contacting the fabric with a detergent composition in an aqueous medium, wherein the detergent composition comprises (a) an enzyme having lysostaphin activity, (b) a surfactant, and (c) one or more of amylase, arabinase, galactanase, lipase, mannanase, pectinase, protease, and xylanase.

**Claim 8 (New).** The method of claim 7, wherein the enzyme is a lysostaphin.

**Claim 9 (New).** The method of claim 7, wherein the detergent composition comprises an amylase.

**Claim 10 (New).** The method of claim 7, wherein the detergent composition comprises an arabinase.

**Claim 11 (New).** The method of claim 7, wherein the detergent composition comprises a galactanase.

**Claim 12 (New).** The method of claim 7, wherein the detergent composition comprises a lipase.

**Claim 13 (New).** The method of claim 7, wherein the detergent composition comprises a mannanase.

**Claim 14 (New).** The method of claim 7, wherein the detergent composition comprises a pectinase.

**Claim 15 (New).** The method of claim 7, wherein the detergent composition comprises a protease.

Claim 16 (New). The method of claim 7, wherein the detergent composition comprises a xylanase.

Claim 17 (New). The method of claim 7, wherein the detergent further comprises a detergent builder or complexing agent.

Claim 18 (New). The method of claim 7, wherein the detergent further comprises a polymer.

Claim 19 (New). The method of claim 7, wherein the detergent further comprises a bleaching system.

Claim 20 (New). The method of claim 7, wherein the detergent further comprises a stabilizing agent.

Claim 21 (New). The method of claim 7, wherein the detergent further comprises one or more of a fabric conditioner, foam booster, suds suppressor, anti-corrosion agent, soil-suspending agent, anti-soil redeposition agent, dye, bactericide, optical brightener, hydrotrope, tarnish inhibitor and perfume.

Claim 22 (New). The method of claim 7, wherein the washed fabric has a malodor index which is at least 10% less compared to laundry which has not been contacted with an enzyme having lysostaphin activity.
